

PATENT

Serial No. 10/551,315

Amendment in Reply to Office Action of September 3, 2008

REMARKS

This paper is filed in response to the Office Action mailed September 3, 2008, requiring an election of the claimed invention between:

Group I, identified to include claims 1-3 and 28, drawn to a method for determining axial speed of an optical lens;

Group II, identified to include claims 4-6, drawn to a method for determining the sensitivity of a focal actuator of an optical disc drive;

Group III, identified to include claims 7-13, 16-22 and 25-27, drawn to a method for determining the distance between two reflective layers of an optical disc; and

Group IV, identified to include claims 14-15, 23-24 and 29-30, drawn to a method for recognizing type (CD; DVD) of an optical disc.

Applicants hereby elect without traverse Group IV including claims 14-15, 23-24 and 29-30. Claims 1-13, 16-22 and 25-28 are withdrawn.

Serial No. 10/551,315

Amendment in Reply to Office Action of September 3, 2008

In addition, Applicants deny any statement, position or averment of the Examiner that is not specifically addressed by the foregoing argument and response. Any rejections and/or points of argument not addressed would appear to be moot in view of the presented remarks. However, the Applicants reserve the right to submit further arguments in support of the above stated position, should that become necessary. No arguments are waived and none of the Examiner's statements are conceded.

In view of the above, it is respectfully submitted that the present application is in condition for allowance, and a Notice of Allowance is earnestly solicited.

Respectfully submitted,

By
